UPA II

*Leading-edge technology
 in product identification.*

Offering a choice of print engines from:

Sato

Zebra

Datamax

UPA II features:

- Easy-to-use operator touch screen
- Programmable Logic Controller (PLC)
- “Quick change” Tamp head.
- Removable tamp head assembly for easy access to print engine.
- Proximity sensor in head “smart head.”
- Label out condition
- 12” roll capacity, 3” core.

UPA II options:

- Label on head detection
- 3 tier light tree with system fault indicators to include label low, ribbon low, and ribbon out conditions
- External signal output
- Allen Bradley Micro 1200 PLC
- Tamp/blow applicator
- Wipe-on applicator
- Radio Frequency Identification (RFID)

We're following our own lead.

The UPA II CL & CT, applying labels to the leading or side panel, dual panels, corner leading or corner trailing.

UPA II CL & CT features:

- Easy-to-use operator touch screen
- Programmable Logic Controller (PLC)
- Swing arm label application mechanism
- Secondary foam label wipe down roller
- Ribbon and label low/out indicators
- Photoelectric product sensors
- Heavy-duty T or U-base stand
- 12” roll capacity, 3” core
- Product ON delay

UPA II CL & CT options:

- Label on head detection
- Light tree system fault indicators
- Audible alarm fault indicator
- External signal output
- Allen Bradley Micro 1200 PLC
- Dual panels control providing the ability to apply labels in multiple modes with a touch of a screen.
- Radio Frequency Identification (RFID)
